

STATEMENT BY PRESIDENT DONALD J. TRUMP

Our nation is SUFFERING. Our economy is in the gutter. Inflation is rampant. Gas prices have reached an all-time high. Ships are unable to unload cargo. Families cannot get needed baby formula. We are an embarrassment around the world. Our withdrawal from Afghanistan was a disaster that cost us precious American blood, and gave \$85 billion worth of the best military equipment on earth to our enemy.

Millions and millions of illegals are marching to the border and invading our country. We have a White House in shambles, with Democrats, just this week, declaring that Biden is unfit to run for reelection. And what is the Democrat Congress focused on? A Kangaroo Court, hoping to distract the American people from the great pain they are experiencing.

Seventeen months after the events of January 6th, Democrats are unable to offer solutions. They are desperate to change the narrative of a failing nation, without even making mention of the havoc and death caused by the Radical Left just months earlier. Make no mistake, they control the government. They own this disaster. They are hoping that these hearings will somehow alter their failing prospects.

A certain Democrat once said, "It's the economy, stupid." Well, Democrats now seem to think that Americans are "stupid." They are not. America is crumbling, and Democrats have no solutions. Our nation has no hope of change for the better under Democrat leadership. People are desperate. Rather than solving problems, Democrats are rehashing history in hopes of changing the narrative. During my time in office, our nation was thriving, our economy was strong, and the price of gas was very low. Above all else, we were respected, perhaps like never before. America prospered under the Trump Administration.

The Sham Investigation

The January 6th Unselect Committee is disgracing everything we hold sacred about our Constitution. **If they had any real evidence, they'd hold real hearings with equal representation.** They don't, so they use the **illegally-constituted committee** to put on a smoke and mirrors show for the American people, in a pitiful last-ditch effort to deceive the American public...again.

Our Constitution protects the **right to confront accusers**, honors the right to fair trials, and holds the right to legal representation as paramount in our justice system. Equal representation and the opportunity to offer rebuttal evidence is fundamental in our legal process. The Committee has obliterated those rights and is making a mockery of justice. They have **refused to allow their political opponents to participate in this process**, and have **excluded all exculpatory witnesses**, and anyone who so easily points out the flaws in their story.

MAGA witnesses were interrogated behind closed doors and ordered to not record their own testimony. Members of my staff, my friends, supporters, volunteers, donors, were subjected to hours upon hours of inquisition – oftentimes having nothing to do with January 6th. Their very lives were turned upside down for obvious reasons. They were told it was an ongoing

investigation and any reproduction of the interrogation would be viewed as an attempt to interfere in the investigation. They were gagged, threatened, and in some cases ruined.

Yet, the Unselect Pseudo-Committee has coordinated with their media puppets to broadcast *their* witnesses on national television without any opposition, cross-examination, or rebuttal evidence. The American public has a right to know the truth and see every witness, but these corrupt officials are trying to force-feed the public with their politically opportune sideshow.

What are the members of this treasonous “Committee” afraid of? Why can’t they let the countervailing opinion be heard? Why are they hiding evidence from the public and only showing information that favors the Democrats’ tall tale? They’re afraid of losing the narrative, because their political opponents could easily show how the committee is lying to the nation and has stripped Americans of their rightful power.

Democrats created the narrative of January 6th to detract from the much larger and more important truth that the 2020 Election was Rigged and Stolen. Politicians from both parties, but mostly the Democrats, worked in conjunction with corporate elitists to strip Americans of our right to elect our own leaders. To do so, corrupt officials violated their own state laws.

The separation of powers is designed to make sure that no officials become dictators by granting the authority to *make* laws with the legislature and *execute* laws with the executive branch. No one office should have complete power. It must be separated among different offices. In 2020, separation of powers went out the window. The state executive branch, in both red and blue states, decided to completely ignore state laws, make up their own rules, and execute them. In other words, they became the little dictators our Constitution was designed to prevent.

They illegally inflated voter rolls, illegally allowed harvested and stuffed ballots, abused the use of mail-in ballots, physically removed Republicans from counting facilities, abused the elderly in nursing homes, bribed election officials with donations, stopped counting on Election Night, gave Democrats three extra days to harvest ballots, and demanded that the American people believe it was legitimate.

This entire charade of the Unselect Committee is a brazen attempt to detract the public’s attention from the truth. The truth is that Americans showed up in Washington, D.C. in massive numbers (but seldom revealed by the press), on January 6th, 2021, to hold their elected officials accountable for the obvious signs of criminal activity throughout the Election. Those who are supposed to be public servants are using the power of government against the people who entrusted them with the power. We’ve been betrayed.

Since the Unselect Committee refuses to allow their political opponents to participate in the hearings, the public likely won’t hear from the many patriots who contradict the lies being broadcast – at least not in these hearings. This is all a ridiculous and treasonous attempt to cover up the fact that Democrats rigged the Election and are siphoning Americans’ freedoms and power for their own benefit.

Without the ability to have political, legal, or witness representation from conservatives in this Kangaroo Court, it's up to American patriots to arm themselves with the information. This hearing isn't about January 6th, it's about November 3rd, and here's what happened.

Stop the Count

On Election Night, America watched as my lead grew and grew over Joe Biden, as I was set to claim another victory. By the morning of November 4th, the day after the Election, I led by 700,000 votes in Pennsylvania,¹ 300,000 in Michigan,² and hundreds of thousands in Georgia, Arizona, and Wisconsin.³ Then, the same “little dictators” who destroyed the separation of powers made the treasonous decision to stop counting.⁴ These same states, who had counted millions of ballots in a single day, had to stop counting in order to count a few hundred thousand ballots over the next four days to call the race on November 7th.⁵

Why would it take four more days to count a few hundred thousand votes when they had counted millions in one day? They needed time to traffic the ballots and manipulate the outcome of the Election. The Swamp was so determined to keep their stranglehold on power that they delayed the results of the Election so that they could find, manufacture, or produce more ballots, after they knew how many they needed to beat me. They cheated! There's no reasonable explanation for why it took so much longer to count the few remaining ballots as opposed to the millions on Election Day – other than they needed to traffic more ballots, and it took four days to produce the ballots and do it. They couldn't have done it without an elaborate ballot trafficking scheme.

Ballot Trafficking

Highly respected True the Vote's Catherine Engelbrecht and Gregg Phillips showed the nation exactly what the Democrats' illegal ballot trafficking scheme looks like. They spent years investigating election crimes, and their hard work provided America with the indisputable proof so many had been waiting for. True the Vote cooperated with Dinesh D'Souza to produce the blockbuster documentary *2000 Mules*, which provides video evidence of the ballot trafficking scheme Democrats have created.

Engelbrecht and Phillips used geo-fencing data that they purchased to isolate and identify potential mules. Like drug mules, in this context, mules are those paid to illegally traffic ballots from nonprofits organizations and drop them into the ballot drop boxes. The search criteria they used was to isolate cell phone data that had been to 10 or more ballot drop boxes, while also visiting at least five identified nonprofit organizations during a two-week period.⁶

There's no legitimate reason for any individual to visit 10 or more ballot drop boxes. Why would anyone need to vote 10 times? Couple that with the idea that the same individuals are also visiting the offices of liberal nonprofits in the same time period.

At least one whistleblower at one of the nonprofits in Yuma came forward and confirmed that these organizations act as trafficking hubs for the mules to pick up the ballots to drop off at the drop boxes.⁷ One woman in Arizona has already plead guilty to a Class 6 felony for participating in this ballot trafficking scheme.⁸ And Democrats are getting tax write-offs for this behavior!

True the Vote and local law enforcement have the video surveillance showing the mules dropping many ballots into the drop box, which confirms the geo-fencing data that Engelbrecht and Phillips had gathered. This is the same surveillance evidence that the FBI has used to identify January 6th protestors.⁹ In fact, the FBI has used this same type of evidence in 45 of the criminal cases against January 6th protestors.¹⁰

Yet, the dishonest media puts experts front and center to tell America that True the Votes' evidence is unreliable.¹¹ It's the exact same evidence the FBI used against January 6th protestors! How can the evidence be an indispensable tool to identify January 6th protestors, but when applied to ballot traffickers, the science is unreliable and not precise? The hypocrisy is stifling! The Swamp has blown the bottom out of how low they'll go to deceive the American public in order to keep their vice-grip on power. Thankfully, Americans are taking responsibility for what they believe, and simply no longer believe the narrative.

The truth is, according to Joe Biden, that the Swamp has created the "most extensive and inclusive voter fraud organization in the history of American politics,"¹² and it centers around ballot trafficking.

The Math

The illegal ballot harvesting operation is an insult to the democratic process, but the kicker is the media feeding us the bogus line that this was the most secure election in U.S. history. What a load of bologna! The data shows us how compromised the system was. The math shows us that it changed the outcome of the Election.

¹² Joe Biden - <https://www.youtube.com/watch?v=WGRnhBmHYN0>

Looking at just the known traffickers Engelbrecht and Phillips identified, the 2000 mules, we know they averaged 38 drop box visits averaging five ballots per box.¹³ That totals 380,000 illegal ballots inserted into the Election via the drop boxes. We also know they targeted specific counties in order to impact the outcome of the Election. Many of those counties were separated by only a few thousand votes.

Based on the data, Georgia had 250 mules average 24 drop boxes with five ballots each, totaling 30,000 illegal ballots.¹⁴ The margin of victory in Georgia was only 11,779, meaning that ballot trafficking alone would have changed the outcome of the state. There was a lot of other suspicious activity in Georgia, but the trafficking, by itself, was sufficient to change the outcome. Georgia's 16 electors should not have gone to Biden.

A similar story occurred in Arizona. Two hundred identified mules averaged 20 drop boxes and five ballots each.¹⁵ That's a minimum of 20,000 illegal ballots. The margin of victory in Arizona alone was 10,457, meaning that ballot trafficking alone was enough to flip the state. Arizona's 11 electoral votes should not have gone to Biden.

True the Vote identified 1,100 mules in Philadelphia alone, each averaging 50 drop boxes and five ballots per box. That's 275,000 illegal votes. The margin of victory in Pennsylvania was only 80,555, meaning the ballot trafficking scheme *in Philadelphia alone* was enough to flip the entire Commonwealth of Pennsylvania. The Commonwealth's 20 electoral votes should not have gone to Biden.

Those three states show that the illegal ballot trafficking scheme alone sufficed to change the outcome of the Election. But what about the other states?

Michigan had 500 mules identified, averaging 50 drop box visits, and five ballots per visit for a total ballot harvest of 125,000 ballots.¹⁶ Biden's margin of victory in Michigan was 154,188. That means the ballot harvesting scheme, at a minimum, narrowed the results so that operatives at the polls only needed to manufacture a little over 29,000 votes statewide. We all saw as citizens in Detroit protested outside the TCF center,¹⁷ because Republicans were excluded from the process in one of the most corrupt areas in the country.¹⁸ What were they doing inside? Did they discard Republican ballots? Did they print new Biden ballots? No one has been allowed to investigate in Michigan.

Engelbrecht and Phillips identified 100 mules in Wisconsin that averaged 28 drop boxes and five ballots per box.¹⁹ That's 14,000 illegal votes. The margin of victory was 20,682. That leaves only 6,000 votes for Democrat operatives to make up by either adding Biden votes or

discarding Trump votes. We know that Democrats abused the elderly in nursing homes that easily could have generated more than 6,000 illegal votes,²⁰ likely more. They had to cheat in multiple ways to steal Wisconsin, but the evidence of foul play surpasses the margin of victory in Wisconsin by thousands of votes.

With just Georgia, Arizona, and Pennsylvania, and there were others, the Electoral College vote would have been Trump 279 to Biden 259. But they cheated. And now look where we are as a country!

But What If There Were More

What if True the Vote's criteria to identify the mules was too conservative? Rather than using the requirement to identify someone who went to 10 drop boxes with five or more visits to the liberal nonprofits, what if they looked for people who went to five drop boxes? It's highly unlikely that anyone would need to go to five drop boxes while also visiting nonprofits in the same time span. The data is astonishing! Rather than 2000 mules, the number jumps to 54,000 mules!²¹ And how about if they widened the search even more? The numbers become astronomical, and the results would be a landslide victory for Trump. It is all on live tape produced by the government.

Continuing the conservative estimate of just three ballots per mule with 54,000 mules, the numbers spike tremendously. In Wisconsin, 83,565 illegal votes were trafficked, more than four times the margin of victory.²² In Georgia, 92,670 illegal votes were trafficked, more than eight times the margin of victory.²³ In Pennsylvania, 209,505 votes were trafficked, more than double the margin of victory.²⁴ In Michigan, 226,590 votes were trafficked, tens of thousands of votes over the margin of victory.²⁵ In Arizona, 207,435 votes were trafficked, almost 20 times the margin of victory.²⁶ Using this slightly less conservative calculation, coupled with the geo-tracking data, the same used by law enforcement, I decisively won all of the contested states. The final electoral count should have been Trump 305 to Biden 233.²⁷

It's also highly likely that True the Vote did not uncover 100% of the mules, making the numbers much larger than a landslide in scope, and that there were many more mules out there affecting more of the Election than we realize. This was not a close Election.

There were 19 counties in the U.S. that voted for the winning Presidential candidate since 1980, they're known as bellwether counties.²⁸ I won 18 of the 19 bellwether counties.²⁹ Eighteen of the 19 counties who consistently vote for the winning candidate voted for me, yet we're supposed to believe that Joe Biden won the Election?

Joe Biden, a candidate who never left his basement and can't speak without a teleprompter, outperformed Barack Obama and Hillary Clinton in their two high-charged elections.³⁰ Biden even outperformed Obama in black communities, but only in important swing states. Isn't that amazing? It's impossible.

Basement Biden earned more votes than Obama in Fulton County, Ga. (Atlanta) by 131,733 (53%), and Wayne County, Mich. (Detroit) by 1,917 (0.3%),³¹ which are the two largest black populations in the United States.³² Biden also earned more votes than Obama's 2012 campaign in Cobb County, Ga. by 89,321 (52%),³³ and Oakland County, Mich. by 85,093 (24.4%)³⁴. Either there's a lot of black voters in America who identify more with Joe Biden than Barack Obama, or Democrats are stealing black votes – and we all know the answer to that.

Apparently, Joe Biden is twice as popular in Arizona as Barack Obama, even among black and Hispanic voters. Sleepy Joe earned a total of 1,040,774 votes in Maricopa County, Ariz. (Phoenix). That's 508,490 more votes than Obama earned in 2012 (532,284), nearly doubling Obama's 2012 performance in the key swing state. Biden's unbelievable success of outperforming Obama continues in Las Vegas³⁵, Nev., Madison, Wisc.³⁶, Green Bay, Wisc.,³⁷ and a number of other cities across the country. It didn't happen.

In Pennsylvania's six largest counties, Biden supposedly outperformed Obama's 2012 record setting numbers in Philadelphia by 46,766 (8.3%), in Allegheny County (Pittsburg) by 80,914 (23.2%), in Montgomery County 91,950 (40.4%), in Bucks County 45,114 (28.2%), in

Zuckerbucks

Mark Zuckerberg contributed \$419 million dollars to election initiatives around the country.⁴⁰ Supposedly, the money was used to make elections safer as a result of the China Virus (COVID-19). However, **the money was not primarily used for China Virus protection**, although some did go for that purpose. For example, in Wisconsin, the money was conditioned upon the five largest counties adopting a Democrat only initiative of the Wisconsin Safe Voting Plan (WSVP).⁴¹ The five key counties, Milwaukee, Kenosha, Madison, Racine, and Green Bay, became known as the "Zuckerberg 5."⁴²

Zuckerberg funneled his money through the Center for Tech and Civic Life (CTCL), a liberal nonprofit based in Illinois, which received the lion's share of the money, at least \$350 million.⁴³ CTCL is a radical leftist organization filled with Obama Foundation fellows and Obama appointees.⁴⁴ **Almost all of the money went to Democrat-run and controlled areas.** Very little, for cosmetic purposes only, went to Republican areas. They threw us a bone.

According to the **Special Counsel report in Wisconsin**:⁴⁵

"[A]nother election purpose existed as evidenced by the documents obtained by the Special Counsel. That other election purpose was to fuse together the CTCL, their allied private corporations, the Zuckerberg 5, and \$8.8 million of private funding into joint operations in that group of cities, where the focus would be on facilitating increased in-person and absentee voting, particularly in their "communities of color." See, e.g., App. 7- 27 (WSVP). From the beginning, the purpose of the WSVP contract and its private funding was for the Zuckerberg 5 to use CTCL's private money to facilitate greater in-person voting and greater absentee voting, particularly in targeted neighborhoods."

Based on the Special Counsel's report, liberal nonprofits funded by Zuckerberg – who was also trying to control the election narrative on his social media platforms – lied to the public

about the real use of their money. Why would they need to lie if they weren't doing anything wrong? Because they were doing something wrong and they knew it. They knew the money was conditioned upon their ability to control the election process. The Special Counsel further states in his findings:⁴⁶

“Any Agreement Where a City’s Election Officials Receive CTCL or Other’s Private Money to Facilitate In-Person and Absentee Voting Within a City Facially Violates Wis. Stat. § 12.11’s Prohibition on Election Bribery Under Wis. Stat. § 12.11.

The CTCL agreement facially violates the election bribery prohibition of Wis. Stat. § 12.11 because the participating cities and public officials received private money to facilitate in-person or absentee voting within such a city. Any similar agreements in the 2022 and 2024 election cycle would also be prohibited election bribery.”

According to Wisconsin’s Special Counsel, the money was intended to impact in-person and absentee voting, which would have a direct impact on the outcome of the Election.⁴⁷ Also, according to Wisconsin’s Special Counsel – that’s bribery.

Zuckerberg should be criminally prosecuted. Election laws prevent individuals from donating more than \$5,000 per year,⁴⁸ yet Zuckerberg gave \$419 million.

And it’s not just Wisconsin. CTCL provided funds, according to their form 990 they filed with the IRS, to 47 of the 50 states, plus Washington, D.C.⁴⁹ For example, before the 2020 Election, the group gave \$45 million to Georgia, \$38.6 million to Texas, \$25 million to Pennsylvania, \$25 million to New York, \$7.5 million to Ohio, \$21 million to New Jersey, \$16.8 million to Michigan, \$21 million to California, and \$5 million to Arizona, among others.⁵⁰ Did all the grants to the states have strings attached? Or was it just Wisconsin?

How unfair and illegal is this? How do you win an election against this? But we did, **getting almost 75 million votes, the most in history for a sitting President.**

Pandemic of Injustice

Beginning the night of November 3rd, Americans knew there was something wrong going on. Almost immediately, citizens around the country started filing lawsuits seeking information and clarification about the Election.

The year leading up to the Election had been a year of violent liberal assaults on cities around the country. Democrats made it known that they would rather burn cities to the ground than allow for a civilized political process. They knew their policies were failing, citizens weren't buying their hype, and they were losing their influence. So, they spent the year creating an atmosphere of fear, and that's the environment in which concerned citizens were forced to file their lawsuits.

Judges, including Justices of the United States Supreme Court, were scared. Some were political hacks who refused to be the sole arbiter of such a strong political issue. It was liberal fearmongering. Rumors circulated that the Justices devolved to shouting and argued intensely over how to handle the *Texas v. Pennsylvania* case.⁵¹ Ultimately, the Justices yielded to the same fear mongering tactics Democrats had deployed for years. They punted and threw the case out on standing. Following their lead, every lower court threw the cases out on standing, and usually without barely even looking at them.

Some of the cases had well established grounds for standing, and one had even been in open litigation for 10 months before the court reversed itself and threw it out. Specifically, that happened in Georgia, where a court had ruled that the plaintiffs were entitled to review the original ballot images after granting them access to the files. Then, defendants stalled for months. Ten months after the initial filing, the court decided the plaintiffs no longer had standing.⁵² What?!

On November 4th, 2020, Antrim County, Michigan announced that 16,047 votes had been cast and Joe Biden received 7,769 and I received 4,509.⁵³ In 2016, I had received 62% of the vote in Antrim, making the 2020 results particularly surprising. Mr. Bailey, an Antrim County voter, made some phone calls and the Antrim County clerk double checked the results, and issued new results.

A closer look showed 18,059 votes cast in Antrim County.⁵⁴ Joe Biden received 7,289 votes, and I received 9,783, meaning I won 54% of the vote, which still seemed odd compared with the 2016 results. This also doesn't account for the difference in the number of votes cast. Why were they short, and where did the new votes come from?

Antrim County checked a third time and found 16,044 votes cast and that Joe Biden received 5,960, while I received 9,748, winning 60.75%.⁵⁵ Jocelyn Benson, the Michigan Secretary of State asserted the error was simply a clerical error, because the clerk failed to update the Mancelona Township tabulator prior to Election Night for a down ballot race, and that the correct count was always on the tabulator tape. She insisted that the Antrim County Clerk simply

made a mistake, and this was not a cause to look closer at every county in Michigan. Benson shut the discussion down, but Bailey continued to fight in court.⁵⁶

Matt DePerno, Bailey's lawyer, aggressively pursued discovery in the case and successfully won a motion to audit the election machines in Antrim County. On April 9th, 2021, DePerno released an exhibit in the *Bailey* case, with additional findings from the experts examining the evidence, which found that, despite critics saying otherwise, the voting machines *were* connected to the internet, and the officials knew they were connected.⁵⁷ The exhibit produced email communications from Election Night discussing the terrible internet connection.⁵⁸ This also highlights the weird disinformation campaign waged immediately following the Election to dispel the *belief* that machines were connected to the internet, despite the fact that it was true.⁵⁹

Voting machines send the tallies, *via the internet*, to allow the totals to be counted faster. Connecting them to the internet does create some vulnerabilities, but does not mean any malicious activity actually took place. So why all the drama? Why all the hype from election officials across the country trying to convince the public the machines were not connected to the internet when they knew that they were? Why not just say that the machines were connected to the internet, but no security breaches occurred...if that was in fact true? Was it true?

DePerno continued to release exhibit after exhibit detailing technical specifics of anomalies and irregularities raising questions from the 2020 Election.⁶⁰ The corrupt media continued to ignore and bury the story, and hurled insults at DePerno and his case. The court eventually dismissed the case, but not based on any of the evidence DePerno had amassed. It dismissed the case on procedural grounds: the plaintiff was asking for an audit of the Election, and the Democrat Secretary of State told the court she had already conducted an audit. Therefore, the court ruled, the case was moot.⁶¹ No evidence presented, no witnesses to testify. Just, case dismissed. As usual, saved by the court.

Cases around the country received the same treatment. Courts didn't want to be the sole arbiter of such a massive political issue, but they also shouldn't be afraid to do their job. State legislators, members of Congress, senators, governors, secretaries of state, and many other state and federal officials should do their jobs and protect their citizens' right to vote. But, the Swamp runs deep. I guess that turning around an election was a step too far.

As we near the midterm elections, we're watching the Swamp creatures circle the drain as true Americans step up to replace the corrupt Establishment with patriots who will fight for our freedoms.

The Establishment is holding on as tightly as they can to their power as they watch it slip from their grasp. Our country is in a nosedive. Americans are struggling to fill their gas tanks, feed their babies, educate their children, hire employees, order supplies, protect our border from invasion, and a host of other tragedies that are 100% caused by Democrats who obtained power through a rigged election, and the people of our country are both angry and sad.

Americans have very real pressing concerns about the basic necessities of life. What is Congress doing about it? They're doing everything they can to ignore and distract from the very real pain that they have caused this country. They want to talk about *anything* but the 2020 Election results and the fact that they are the cause of our country's problems.

Nobody brings this up, but as President, I suffered years of vicious lies, scandals, and innuendo concerning a fake and contrived narrative of Russia, Russia, Russia. The entire Russia Hoax was a concoction made up by Hillary Clinton and the Democrat Party. It was used as an excuse for her loss, but endured throughout my entire Administration. It was a fake and fraudulent narrative, and now they're trying to do it again.

Many other forms of cheating surfaced during 2020. Republican challengers were excluded from the process, bullied, and berated. Corrupt officials moved to centralize the vote count away from precincts, making it easier to cheat. Some areas are reported to have had more votes than voters! That raises some questions. These are only a few of the many forms of cheating that took place in, what I call, the Crime of the Century, and its cover up by the American media.

This is merely an attempt to stop a man that is leading in every poll, against both Republicans and Democrats by wide margins, from running again for the Presidency. The reason I am leading in the polls is because Democrats have caused record inflation, sky high gas prices, energy dependence on our adversaries, the education system is in crisis, illegal aliens are invading our border, the supply chain has crippled our way of life, parents can't get baby formula, mandates have crippled businesses, and our way of life has been crushed by government regulations. The United States is being destroyed.

The Democrats know that I would correct all of this, and they are doing everything in their power to stop me – but we can't be stopped. We have to Save America.
