

## General Course Information

Our Precision Rifle Courses places heavy emphasis on the fundamentals of marksmanship, with the goal of predictable, repeatable precision and accuracy. You will receive lots of one-on-one ground instruction from Marine Snipers and Marine Sniper Instructors.

We start with an initial evaluation of your marksmanship fundamentals. Then, through classroom and live fire instruction we correct deficiencies, instill confidence and make the student proficient with the rifle out to 1,000 yards.

What makes our Course unique is that we provide a social learning environment. You will engage the instructors and other students the entire training day. The feedback we've received from our past hundreds of students all confirm that the social aspect of our Course was as enjoyable and as valuable as the instruction received.

You will leave the course with a solid foundation in the fundamentals, having demonstrated them for two, or three full days of shooting. You will have the knowledge to build data with any rifle using revolutionary "Weaponized Math", and engage targets in variable conditions, with a full understanding of how those conditions affect the flight of your bullet.

Our Three - Day Course includes Alternate Positions and incorporates time, so that the student becomes proficient in shooting from a variety of shooting positions and under a variety of conditions.

Our students come from all backgrounds and levels of expertise. We have trained first-time rifle shooters, and we have trained professional law enforcement shooters at this Course.

Should you decide to secure a seat for yourself, contact us immediately, as seats are filled at a surprisingly rapid rate. We book months in advance. Full payment is due as soon as you are committed to filling the seat at the Course.

Refunds are only offered if training is canceled by the Course or Range due to unforeseen or tragic conditions. Once you have a seat, it's yours to fill.

### Fee - Includes Instruction Only

\$750 - TWO - Day Precision Rifle Course

\$1,000 - THREE - Day Precision Rifle Course

Payment is made at the site below, on the link for your Course.

Thanks again for your interest.
