

# Precision Rifle Maintenance Seminar

Presented By: Bore Tech, Inc.

Date: Sept 28<sup>th</sup>-29<sup>th</sup> 2019

Location: Precision Rifle Expo -Arena Training Facility

Come join Bore Tech for The Precision Rifle Maintenance Seminar as we take an in depth look at the recommended procedures to properly clean and maintain today's precision long range rifles.

This class will be a hands-on, live demonstration providing proper cleaning and maintenance techniques while discussing current topics such as barrel break-in, cleaning frequency and proper gear selection.

During our time we will dispell the many "myths" of gun cleaning and try to shed light on what it truly takes to keep your precision rifle accurate and performing at its peak.

Care and maintenance of the following areas to be discussed:

- Actions
- Chambers
- Barrel Throats
- Barrels
- Muzzle Breaks
- Suppressors

Come see why Bore Tech products continue to be the #1 choice for today's top shooters who quite simply want...*the best.*
