PRECISION MAKES THE DIFFERENCE!

With over 60 years of riflescope manufacturing experience, we at Schmidt & Bender have been able to research, design, and develop a myriad of ultra-high quality riflescope configurations. We are a global supplier for the most discriminating hunters, leading police forces, and elite military groups worldwide. We offer many unique turret adjustments, first and second focal plane reticle designs, reticle illumination options, power zoom ranges, specialized features, and color options.

Visit our website at www.schmidt-bender.com to find out more about our products and locate your nearest stocking dealer. A monthly Schmidt & Bender Newsletter is published in different languages and provides you with the latest information about our riflescopes. Please subscribe here: www.schmidtundbender.de/newsletter-language. You are also welcome to call us for advice at **+49 (0) 64 09/81 15-0** (German headquarters) or **+1 540 450 8132** (US subsidiary) or send us an email at info@schmidt-bender-us.com.

Founders: Helmut Bender and Helmut Schmidt

HIGHLIGHTS DEFENCE

The world leadership role played by Schmidt & Bender PM II riflescopes is significantly proven by winning police and military contracts around the world. Each of our PM II riflescopes are designed and manufactured according to MIL-SPEC 810G – even if it is for civilian use. The following is just an extract of references of contracts which we are allowed to publish. It is self evident that we cannot name promising projects we are currently working on but they will soon be added to this list.

1-8x24 PM II ShortDot Dual CC

Winner of the German Armed Forces tender “G28 patrol Configuration” and the French FPSA Program. In use with several military and police special forces units.

3-20x50 PM II Ultra Short

U.S. ARMY U.S. AIR FORCE

Winner of the U.S. Army CSASS program. In use with several police and military units like the U.S. Air Force.

5-20x50 PM II Ultra Short

SPECIAL FORCES

Extremely short sniper riflescope. Perfect for combination with night vision devices. Used by military and police special forces units.

3-12x50 PM II USMC

Winner of the 2-year quality and endurance test by the U.S. Marine Corps. In use with the U.S. Marine Corps since 2005.

5-25x56 PM II PSR

Winner of the USSOCOM Precision Sniper Rifle Program. Schmidt & Bender proudly supplies the Special Operations Forces of the U.S. Army, U.S. Navy, U.S. Air Force and U.S. Marine Corps.

3-27x56 PM II High Power

USSOCOM

Winner of the U.S. Special Operation Command “extreme long range” program. In use with USSOCOM and several military and police special forces units.

5-45x56 PM II High Power

SPECIAL FORCES

Perfect combination of rifle and spotting scope. Used by military and police special forces units.

SERVICE

Schmidt & Bender is working hard in order to offer excellent customer care and service. To achieve this, our employees are focused on customer care which is characterized by competence, reliability and speed.

A confirmation upon receipt will be issued for all in-coming repairs. For riflescopes which are not under warranty a cost estimate for repair will be offered. The offer can be acknowledged or denied.

SERVICE CENTERS

We recommend to contact your local Schmidt & Bender dealer for service. In case you want to send your riflescope directly to us you must contact one of our service centers beforehand since different restrictions and regulations apply for shipping riflescopes. You are welcome to address any request or question to our service center. Please see the opening hours and contact details of our service center in USA or Germany (headquarters).

REASONS TO BUY A SCHMIDT & BENDER RIFLESCOPE

Schmidt & Bender is a world leading developer and manufacturer of unique premium riflescopes with uncompromising quality and precision. Established in 1957, Schmidt & Bender is managed independently and family owned in 3rd generation. For over 60 years, the customer has been the focal point of our business and quality has always been our main objective. Our innovative manufacturing processes produce state-of-the-art, long performing riflescopes which meet the customer's highest expectations and demands. All of this is backed-up with superb personal customer care. See our main strengths below and contract references on page 31 which reflects the high esteem of the top-quality level which we uncompromisingly aim for every day.

LENS COATING AND OPTICAL DESIGN

One of the main reasons to buy a Schmidt & Bender rifle scope is our outstanding optical quality. Our riflescopes distinguish themselves from others through the careful selection of high-quality glass material, state-of-the-art optical engineering combined with our high-performance lens coatings. This ensures the highest light transmission and optimal target recognition and identification. Discover what should not remain a secret: the essentials of high-quality Schmidt & Bender optics.

It is all about Glass: Lens Coating and Optical Design

Simply scan the QR code or visit the website:
schmidtundbender.de/en/service/did-you-know

PERFECT FOR FRONT OR REAR MOUNTED NIGHT VISION DEVICES

Our extensive experience with military riflescopes (PM II) in combination with night vision devices are also applied to our hunting riflescopes. Our strong, aircraft grade aluminum main tube ensures that many front mount night vision devices do not impact parallax shift. The rugged ocular head is perfect for carrying a rear mounted night vision device. The great optical performance of our riflescopes will also enhance your night vision equipment device*, regardless of front or rear device mounting.

ROCK SOLID

Schmidt & Bender's in-house research and development department has developed many patents and often sets the bench mark within the industry. By doing so we also strive for sustainability and therefore try to avoid plastic wherever possible. Plastic has the property of outgassing and becoming brittle and makes it in general less durable. That is why only about 3,8 % of all parts within our riflescopes are made out of plastic. O-Rings are a necessity for making a rifle scope waterproof and to retain the nitrogen filling. Schmidt & Bender is replacing plastic with more durable material where ever possible – for rock solid, long-lasting riflescopes and for the sake of our precious environment.

*Contact your local dealer in order to find out which night vision is suitable in order to avoid product damage.
