Sharpening a Competitive Edge

Team Match Clinic at PIGG River Precision

Our Team Match Clinic is a training event designed to prepare a two-man team for matches that involve challenging rifle shooting, including finding, ranging and engaging targets on the clock, timed movements and other team challenges. Training Day 1 will focus on preparing the individual team members, gear selection, team preparation and basics of teamwork. At the end of TD1, we will camp on-site for a gear shake-down. Training Day 2 will be focused on pushing the team to perform with a variety of shooting challenges modeled after some of today's popular team events, including a sample 2-mile ruck. This course is designed to have both team members in attendance.

Price: \$800/team (\$400/person)

Dates & Location: October 3-4, 2020 at PIGG River Precision, Virginia

Notes:

This event is specifically geared to prepare teams for the Mammoth Sniper Challenge and Bushnell Elite Tactical Sniper Competition. Expect two very full days and to camp overnight for extra discussion topics and to test gear. Friday afternoon will have an optional handgun refresher for attendees. This is available to attendees at no extra charge but let us know if interested when signing up.

Topics Covered:

Rifle and Equipment Essentials

Team Wind Strategy

Stage and Match Planning

Positional and Obstacle Shooting Primers

Stage and Match Strategies to Maximize Points

Rucking/Times Movements Discussion & Sample 2-Mile Timed Movement

Optional Handgun Refresher on Friday afternoon

Team Communication and Finding Efficiency

Target Detection and Acquisition

Effective Use of Laser Rangefinders

Tripod Shooting and Support Use

Surviving a Multi-Day Competition

Prerequisites:

This is not a basic class. Students should have basic to intermediate level competency with precision rifles and familiar with support equipment.
